Profile

Dedicated and resourceful Full Stack Developer with 3 years of hands-on experience in the MERN (MongoDB, Express.js, React.js, Node.js) stack. Proficient in both front-end and back-end development, adept at creating robust and scalable web applications. Proven ability to collaborate effectively in cross-functional teams to deliver high-quality solutions.

Skill

- HTML
- CSS
- SASS
- Bootstrap
- Express.js

- JavaScript
- TypeScript
- React
- Node.js
- MongoDB

- MySQL
- php
- Redux
- Git/GitHub
- JIRA

Work Experience

Grank Digital Agency (March 2023 - Present)
Web Developer

- Developed and maintained web applications using the MERN stack, meeting project requirements and deadlines.
- Collaborated with cross-functional teams to design and implement new features, ensuring seamless integration with existing systems.
- Implemented responsive and user-friendly interfaces using modern frontend technologies such as React.js and Redux.
- Designed and optimized database schemas for improved performance and scalability.
- Conducted code reviews and provided constructive feedback to team members, ensuring code quality and adherence to best practices.
- Worked closely with clients to gather requirements, provide technical guidance, and address any issues or concerns.
- Actively participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives.

Projects:

E-commerce Platform

- Developed a full-fledged e-commerce platform using the MERN stack, allowing users to browse products, add them to cart, and securely checkout.
- Implemented features such as user authentication, product search, and order management.
- Integrated payment gateways for seamless transactions.

Primal Infosys, Pune Sep 2021 - Feb 2023
Web Developer (React Developer)

- Gather and analyze requirements from team leads and project stakeholders.
- Develop responsive user interfaces using HTML, CSS, Bootstrap, and React.js.
- Design and implement features for online event management and hotel booking applications using React.js, Redux, Material Design, Express.js, Node.js, HTML, and CSS.
- Write clean, efficient, and cross-browser compatible code.
- Fix bugs and implement enhancements to improve application functionality and performance.
- Integrate code using Git for version control and collaboration.
- Collaborate with cross-functional teams including designers, frontend developers, and testers to deliver high-quality software solutions.
- Ensure code quality and adherence to coding standards through code reviews and testing.
- Stay updated with the latest technologies and industry trends to continuously improve development processes and practices.

Projects:

1. *Dream Event Management Website:*

Role:
- Gathered and analyzed requirements from the team lead to ensure alignment with project goals.
- Developed features for the online event application using React.js, Redux, Material Design, Express.js, HTML, CSS, and Node.js.
- Ensured cross-browser compatibility and wrote clean, maintainable code.
- Identified and resolved bugs, as well as implemented enhancements to improve user experience.
- Integrated code using Git for version control and collaboration.

Project Description:
- Developed an event management web application showcasing event packages with offers and new destinations.
- Enabled users to select event packages based on preferences and requirements.
- Implemented a feature allowing users to add reviews about events in the customer reviews section.

2. *Hotel Website:*

Role:
- Developed a responsive UI using React.js.
- Designed components using Bootstrap to ensure a consistent and visually appealing user interface.
- Produced clean and efficient code according to project specifications.

Project Description:
- Designed and developed a hotel website enabling users to check room availability, make reservations, and view current bookings.
- Implemented features for food delivery services and provided information about hotel facilities.
- Integrated user registration and login functionality to enhance user experience and security.

Education

Bachelor of Engineering Jul 2018 - Jun 2021
Savitribai Phule Pune University

Achievement

- Awarded "Star of G-rank" for outstanding contributions to the development team, demonstrating exceptional problem-solving skills and dedication to delivering top-notch solutions.
- Recognized as "Performance of the Month" for consistently exceeding project expectations, meeting deadlines, and maintaining high levels of productivity.

Tools

Development Environment:
- Visual Studio Code
- Atom
- Sublime Text
- WebStorm
- Eclipse

Version Control:
- Git
- GitHub
- GitLab
- Bitbucket
