PROFESSIONAL SUMMARY

Full Stack Developer with 4 years of experience building secure, scalable, and responsive web applications using the MERN stack (React.js, Node.js). Skilled in financial dashboards, REST APIs, real-time data visualization, payment gateway integration, API security, authentication (OAuth2, JWT, RBAC), and deployment of enterprise-grade fintech platforms following Agile/Scrum methodologies.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux, Tailwind CSS, Material UI, RTK, TypeScript, MFE

Backend: Node.js, Express.js, REST APIs, API integration , Microservices, Webpack

Database: MongoDB, MySQL

Cloud/DevOps: AWS, CI/CD, Git, Docker, GitHub, TeamCity, SDLC, Code Reviews, Agile

Other: JWT, OAuth2, RBAC, DSA, API Security, Postman, Unit Testing

EXPERIENCE

Software Engineer - Simplify Healthcare, Pune

Feb 2026 - Present

- Developed scalable **React.js** interfaces within an **Nx monorepo** using **Micro Frontend (MFE)** architecture, improving healthcare documentation workflows.
- Implemented **insurance rule workflows** by integrating **RESTful APIs** and dynamic form handling, reducing manual processing and enhancing system efficiency and data consistency .

Software Engineer - Juno Softwares, Pune

Jul 2023 - Jan 2026

- Optimized responsive UI with **Material UI** for **ERP** and **DTAC platforms**, improving data loading by 30% using **Server-Side Rendering (SSR)** and **performance optimization**.
- Built interactive **financial dashboards** using **Recharts** for real-time **revenue tracking**, secure **transaction workflows**, and implemented **OAuth2**-based authentication for enhanced data protection.

Web Developer - Tech Prime Lab, Pune

Mar 2023 - May 2023

- Developed dynamic and visually engaging **user interfaces**, enhancing user experience and usability.

Web Developer - Primal Infosys, Pune

Oct 2022 - Mar 2023

- Developed and delivered **full-stack web applications** for **event management** and **hotel booking** using **React.js**, **Redux**, **Node.js**, and **REST APIs**, improving **user experience**, **system performance**, and operational efficiency.

PROJECTS

SmartCampus ERP Transport & Deloitte Feedback Module

- Implemented real-time **GPS tracking**, **route optimization**, dynamic fare calculation, **JWT-based authentication**, **OAuth2**, and **RBAC** with an integrated feedback system for ERP platforms.
- Created an enterprise-grade **video conferencing app** with **Next.js 14**, **Stream API**, and featuring **real-time video/chat**, **responsive UI**, and **scalable architecture**. [Zoom Link](#)

EDUCATION

Bachelor of Engineering in Instrumentation Engineering

Jul 2018 - Jul 2021

Government College of Engineering, Avasari, Pune
